The 1989-90 Collegian

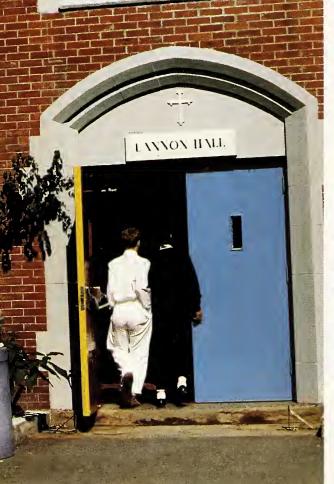

his is both the last Collegian of the 80's and the first of a new decade. It is our hope that captured on its pages you'll find the special moments and highlights that have made 1989-90 a memorable year for all of us at V.C. Like the many changes around campus with the new wing under construction, the Collegian too has changed. Our goal this year was to make a book that showed what V.C. students are really all about. From the colorfull opening section to the sports pages, the yearbook staff has worked hard to include more contributions and photos from students in all grades. Perhaps the most significant thing we learned in this process was the common thread that existed between all students who seem to be getting the most out of being part of Vancouver College: These students are the ones who GET INVOLVED! In the classroom, in activities, and in sports, they don't think about it, they just DO IT!

orning comes and I am awoken. It is not my natural state and I enjoy it not. I go sandblast my body and blowdry my eyeballs. I am now ready to make rational decisions based on logic and reasoning. In otherwords I'm not yet ready for school. Question: should I go to school or wait and watch Ducktales? Logic prevails and Ducktales it is. After this culture fest I return my brain to it's jar and mosey off to school. I arrive in five easy pieces but that's allright because it is tuesday. It's lateslip time! What's a late slip? It is redundant. Something to show teachers whose class that you're coming into late, that you are late. Why not just kick us in the head? It would save time and the brain damage would be the same. Hey, don't even get me started about our block schedule. (Although the last time I checked the alphabet went a, b, c, d ... not d, h, e, f ... etc.) After giving the office my excuse for being late, that I was kidnapped by a herd of water buffaloes, I slink into the cafeteria to avoid homeroom which I loathe. Homeroom is a group of narcoleptics stuck in the same room while the announcements drone on and on about who should go where. I bite into a recently purchased longjohn and experience a cream induced flashback. Who are you? Clapton is God. I am the Walrus. I wish they would date these stupid pastries. Was that the bell?

... by Ryan Munro, Grade 12

Begin to Begin

he bell rings, like a small, round, metal demon screaming its shrill, strident cry of protest against the punishing hammer, throughout the school. We rush through hallways, get to our classes, find our seats, greet friends not yet seen today. Noise drops to a hush and a prayer is recited. The teacher calls attendance. Class has started.

Morning classes. Still groggy and tired from last night's late homework session, or refreshed and alert with a good night's sleep, we officially begin the school day. We begin to get into the rhythm of school, like a heavy heartbeat that pounds steadily throughout the building in tune with ours.

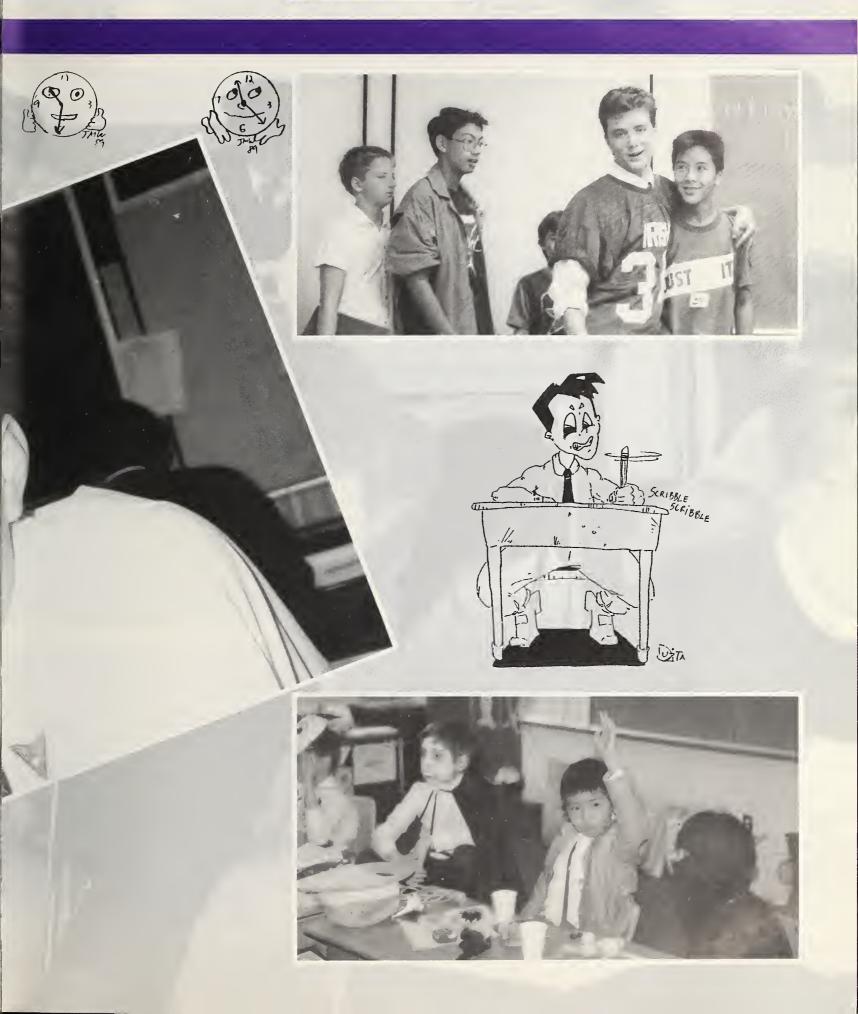

The metal demon shrieks again, signalling the end of the first class. School bags groan under the weight of three or four classes' worth of books. Students trundle off to the next class, some managing to race in just under the bell, others not even succeeding in that.

A student looks out the window at the bright sun and clear blue sky. He reflects on life and the early morning. It is a time when we are filled with energy and vigor, when we are open to learning, like a fresh sponge ready to absorb knowledge. It is at this time that we have our first wind, and are ready to begin the day.

our minutes to lunch. Three minutes to lunch. Two minutes to lunch. One minute to lunch. Forty-five seconds to lunch. Does this teacher ever stop talking? My stomach pump is ready for the Domco special and my locker is full of Tums to combat anything that cannot make it through the big opening. Maybe I'll risk Hasty today. Nahhh. I'd rather skip the clever people at McDonalds. So that leaves only one thing. Whatever I packed in my bag, which by now is no doubt squashed beyond recognition. We have a saying here, he who lives by the Domco burger, dies by the Domco burger. Goodbye cruel world.

ch at Lunch/

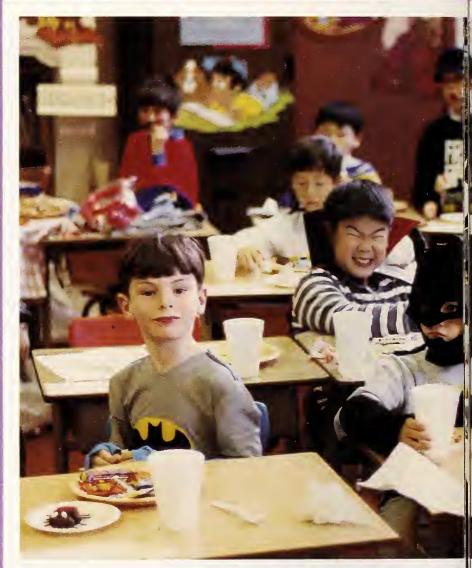

Time Reeps on

fter a big lunch, one gets the urge to just rest and relax. Fifty minutes passes so quickly. Suddenly it's time for Phys. Ed class where we'll have to do a six & 1/2 lap run. Oh well, that's life! When you get to your last class it's hard to maintain your concentration. Every now & then you'll look quickly at your watch. Your mind begins to drift & fantasize. The pain of waiting increases, becomes more intense, until 3:01 pm. The bell rings and the energy returns.

he bell! It tolls for me! Another stimulating day has passed for V.C. students . . . almost. I go to my locker and find the proper tomes. Do I have time to play some tennis? No, I have a debating meeting with Mrs. Small. Huge, purple menacing figures stride past my locker. The Vancouver College Varsity Football Squad is about to rage another hapless team to the ground! The smell of conquest permeates the air like adrenalin in their vains.

Sounds of agitated tumultuous debate echo through this hall. Have they started the meeting without me? No, it is just another session of Student Council in full throttle. That's right, all in favor of placing the smoke pit in the Chemistry Lab say "Aye!"

On the highest level of the school lies the chamber in which the school's most influential and creative minds gather to record all of the day's significant events. The staff room? Not even close. It is the Collegian room, in which layout artists, photographers, film developers, and

other contributers toil to produce this annual volume on life at V.C. Looking out a window, I see the elementary kids neatly dressed in their purple V.C. sweaters and ties, and grey flannel slacks, waiting for their parents to arrive. To pass the time, they chase each other and practice the new 'Vast Plain Body Pretzel' that they have learned from T.V. wrestlers. Whatever happened to hide and seek?

After the debate, I have only three hours of homework tonight, plus a few more hours of piano practice. It's been a full day

V.C. SPIRIT . . NEVER OUT OF STYLE

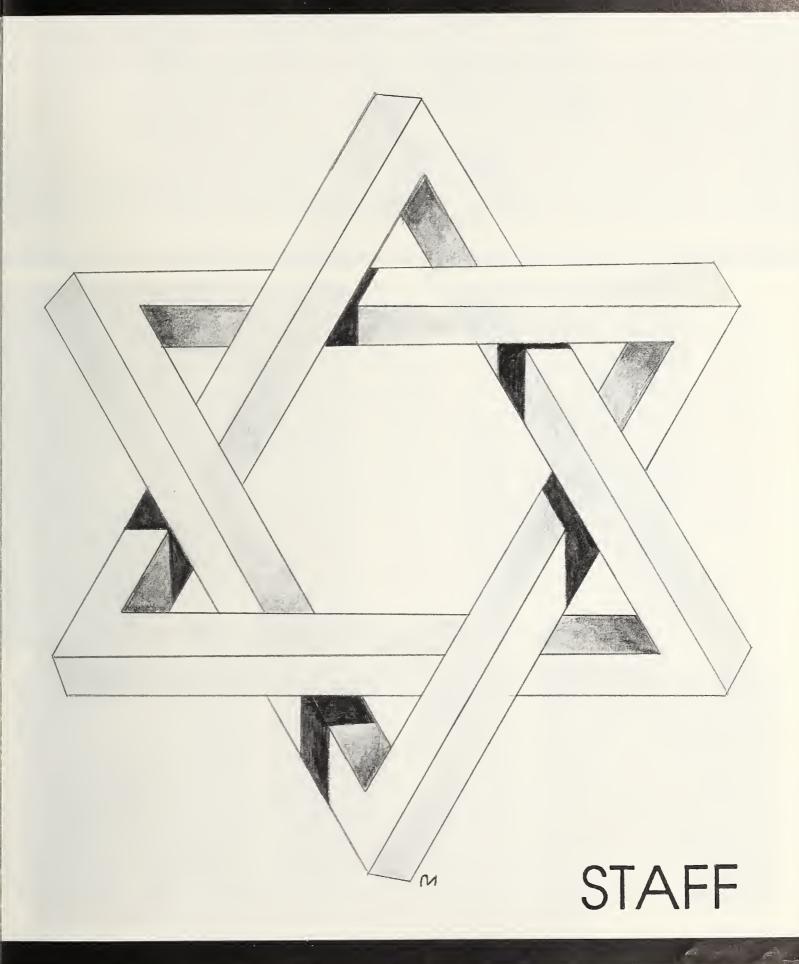

AAUUUGGHHH!!! Gurgle, gurgle. I think my head has exploded. No I'm just at a basketball game showing my spirit. Ha! Time to scream some abusive war like slogans at the other teams' cheerleaders. Now this is living! I hop up and down on someones head as I beat my drum. Wow, spirit, it's just so . . . wild. Blahhgghhh!!! You call that a foul?!? Even if we lose it does not matter, I have enough cheetos for everyone. Time to be repetetive! We've got spirit! Yes we do! We've got spirit! How 'bout you?! (repeat ad nauseum) Spirit, it is present at this school not only at games but in everything we do. Sounds corny of course, but this is the only way to say it. Spirit, we've got it. 'nuff said.

PRINCIPAL'S MESSAGE

The years 1989 and 1990 will long be remembered in the imagery of crumbling walls and masses of protesting people. As you head into your next year, be it post-secondary or not, keep in mind that there are many walls yet to be removed from society and from our personal lives. Whether these walls be made of concrete, idealogy, economics or emotions, they serve only one purpose - to divide that which should be unified. If you avoid becoming "just another brick in the wall' then you will have done your bit to reduce division and enhance the world as a beautiful place in which to live.

No one need travel to foreign lands to participate in this exercise of liberation. By participating fully in your school, community, church or family you are laying the foundation for world unity. Vancouver College continues to grow as a diversified community. Through your efforts and interests you have helped it to become a better place in which to grow and learn. Thank you for your contribution to this ever growing mosaic.

May you always share abundantly in the joy and peace of that unity which is God's special blessing for those who remove the walls of division from this world of ours.

The Day I Will Always Remember

The day I will always remember is the day the grade four class made paper mache. After we finished, it looked like it had been snowing in the classroom. Jay's kept on breaking. It's strips would keep falling off. One time when the strips had sank to the bottom of the balloon it actually looked quite like a dyper! (a wet one!) Then comes another funny part when the cleaning lady came and she just about flipped.

My funniest moment was last year. It was when I fell asleep during the movie "Harry and the Hendersons." It was very funny because I covered myself up with pillows and everyone was trying to wake me up by sitting on me and tickling me but I was determined to keep sleeping. I was asleep in the corner underneath all the shelves. This was a real embarrassing moment at Vancouver College. When my mom came to pick me up she couldn't believe this happened.

The Way They Were . . .

. . . Lively, Energetic and Young.

It happened when I was quite young. I was in grade three at the time. I can still remember it very clearly. As we know, Brother Gerard often gave a can of pop to a lucky boy. The magic words were "Brother First" and a big smile on your face.

After School, as usual, Bro. First was standing by the cafeteria pop vending machine changing bills to coin. I had my chance and I took it. I nervously walked up and asked Brother First "Can I have a pop?" He looked at me and smiled, then the moment I'd been waiting for, he reached in his change pocket and he drew out 75 cents.

The most memorable thing of my grade 8 year was when Jason, James and I did a religion project on video tape. We had so much trouble to film it, reserve the t.v. and present it, that we finally finished it about a couple of weeks after the deadline. That is probably the funniest thing we ever did in a religion class. We had a great time putting it together!

Grade 9

What's good about this year? One good thing is the addition to our school. This new, three storey complex will open up a variety of different opportunities by allowing us to have the media room and several classrooms. I'd say that the twenty kilometer Walkathon was well worth the effort to see the progress in the construction. The biggest problem with the addition is competing with the noise of the screeching saws and monotonous jabbing of the jack-hammers.

Grade nine is proving to be more of a challenge than grade eight. There is more homework and greater pressure. However, with all this work we are preparing ourselves for highschool and university.

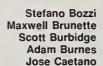

The Passport to Education has become a new goal for most students this year. Not only do we have to do well in our studies but we have to be involved in extracurricular activities. It encourages us to try harder in school and sports and strive for excellence.

HIGH SCHOOL

Grade 10

This past year I learned a valuable lesson. It was grade 10, the year I made the transition into high school. The transition was made difficult because of the extra workload. It is a year which makes or breaks a student. This year we were introduced to a new award. The award is given to the student who has improved himself academically and spiritually, someone who has developed himself to his potential. The award included a large sum of cash. I began to suspect I could possible win the prestigious award. I felt I had tried hard to succeed the previous year. My palms began to sweat with anticipation. The award was presented and I was disappointed, I had not won. A momentary depression overcame me. The award was given to Craig Swain, a friend of mine. I imagined how Craig must have felt. It felt good. I realized the reason I had not succeeded. I had not strived for excellence. I had not given enough effort. I woundered if I could succeed later. I then remembered a great message.

"You life is what you make of it nothing more, nothing less." - The Pigman, Paul Zindel Yes, I could succeed elsewhere.

Youth
Today's youth is mankind's hope for the future. We have
the power to control the world's destiny.

Anyone can see that the world we live in today is full of chaos and disorder. There are wars and acts of terrorism due to racial, social, and religious conflicts. Gang violence and murders are rampant due to drugs in the cities. Children fall victim to society's corrupt influences. There are pressures affecting everybody: our peers, fellow workers, and family members. Some people are under such stress that they could consider suicide as solution. We are selfish and too concerned with materialism. But it is neither realistic nor wise on our part to hope for perfection. Yet, it is our responsibility to the next generation to try to improve society. It is up to us to ensure that, as we enter the 90's, the selfishness and materialism of the 80's is replaced by social awareness. Our world was shaped by past generations, just as an author writes a book. We are the authors of our own destiny. The future of our world is like the blank pages and how the story ends is up to us.

INSTANT GRATIFICATION

hree words that might describe the 80's are 'convenience', 'communication', and 'consume'. After all, it was a decade when the "time saving device" came into its own as Instant Bank Machines, drive through restaurants, microwaves, and the icon of the couch potato, the TV remote, became part of our everyday experience. The world of high tech electronics also changed our lives forever. Fax machines, modems, PC's, and cellular phones allowed us new ways to communicate while the Walkman, Ghettoblaster, Video Camera, and Laptop Computer gave new meaning to the word 'portable'. It was also the decade of the Yuppie Generation whose credo seemed to be "Whoever spends the most wins." BMW, Reebok, Polo, the labels changed as quickly. The term "Deficit" became a household word. And as we head for the '90's, it appears that the Earth itself has become the most trendy item of all.

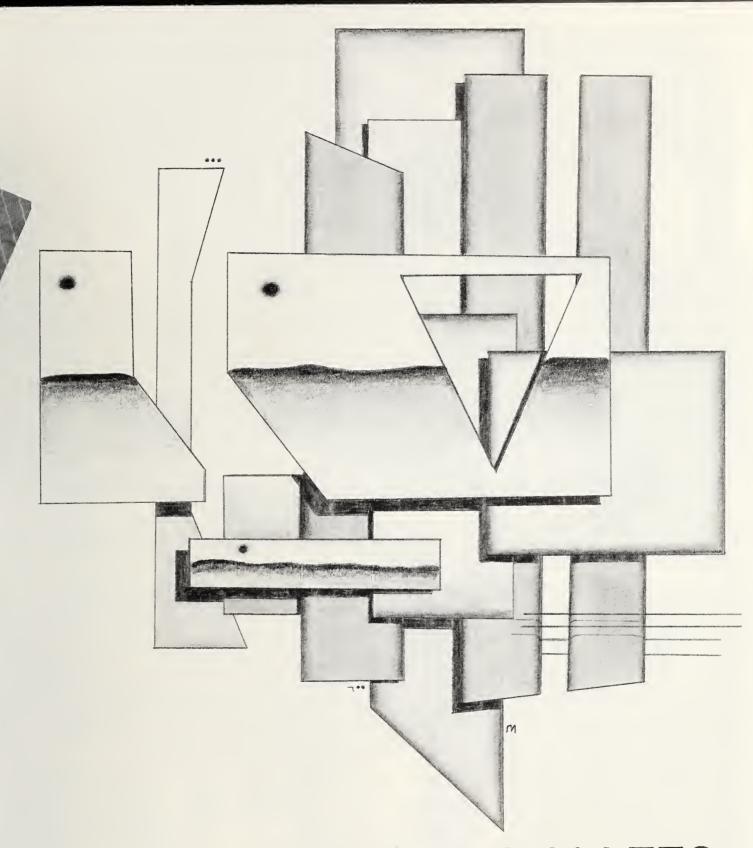

GRADUATES

12 Year Men . . . The Survivors

The 12 year men of the Graduating Class of 1990. In the Back Row, From Left to Right, are: Stephen McNamara, Peter Fahrmann, Robert Livingstone, Marc Pelletreau (13 year man), and Lionel Haims. The Front Row, From Left to Right, are: Martin Dumas, Douglas Oddy, Jason Gach, Matthew Nathanson, Ms. Campbell (the Gr. 1 teacher of this year's 12 year men). Absent: Emmet Duncan.

12 YEAR MEN

We are the survivors--the last of a dying breed. We've made it all the way, and now it's over. Yet, in a sense, this journey, which we undertook twelve years ago and are completing now, will never be forgotten; Vancouver College will always be a part of us.

Over the years we have seen this place, which we can now rightfully call our home, change. From the dusty gravel field to the modern track and playground, the school has changed its apperance and outlook. We are a part of the old V.C., in its rich and glorious traditions, and our passage has helped shape the new. But some things about this place cannot be altered by any amount of time. These are the intangibles that make it more than just an institution of education--the things that create a bond between us that no one else may ever come to understand. The experiences we have accumulated will always remain etched in our memories, the last vestiges of our adolescence.

As we have witnessed and participated in transforming Vancouver College, so have we been deeply affected by our stay here, and this place, which is deep in our hearts, has made an indelible mark on the passage of our lives.

Grade 12 Retreat

A grade 12 student reflects about his retreat and shares his thought with us:

Nine O'clock Monday morning was the beginning of the most intense experience of my high school life. As I stepped onto the Perimeter bus for the Grade 12 retreat at Evans Lake, I had visions of three boring days of eating, sleeping, and praying. What was to come was something I never could have imagined possible.

The sessions with Father were anything but boring. His emphasis and central theme was building healthy strong relationships with our family and friends. Father Kimball used moden music and the meaning behind the songs to successfully teach us something which we will always remember.

always remember.
The first night at Evans Lake was one of complete chaos and trouble. People had difficulty sleeping due to loud yelling, fireworks, and rock music to the early hours of the morning. The camp directors and staff were not pleased at all.

The next morning, after breakfast, the entire camp gathered in the recreation hall to discuss whether or not to continue the retreat. The comments and feelings of my peers were not those of the people I knew the day before. The students and teachers worked through a problem like reasonable mature adults, a feat I never thought possible.

Later the same day, during the evening lecture, the students opened letters sent to them from their parents. These letters expressed the feelings of the parents towards their children. My letter brought tears to my eyes as did other letters to other guys. That night we all understood Father Kimball's message in dealing with relationships.

With the guidance and knowledge of Father Kimball and the antics of the first night, we all learned to strengthen our relationship with each other. Coming together to support and help one another during a time of need showed a necessary change and a healthful growth in the Grad Class of 1990.

John Bishop Grade 12 Student

February 26, 27, 28, 1990

The Grade 12 retreat was held at Evans Lake last February 26-28th. Fr. Don Kimball was the retreat director. Fr. Kimball is a priest of the Diocese of Santa Rosa, California.

A guest speaker at the retreat was Mr. Chuck Luttrell, Director of Administration and Curriculum, Catholic Public Schools of the Vancouver Archdiocese.

Grads In Action At The Evans Lake Retreat 1990

Vincent Fargas Arao

Since Vinny's arrival to V.C. in grade 7, school life has never been the same. From the war grounds of O'Hagan Field to the echoing war cries from the stands with A.C., to handin' tough with his homeboy's C.C., D.C., G.S., and M.N. Vin Man's role at V.C. has been a most triumphant experience. But most of all, the victories and hardships he has experienced during his stay at College, he will never forget the true meaning of PALS. He would like to thank the teachers, the Brothers, his friends and especially his parents for guiding him along the road . . . to Damascus. Yo, Yap, Manila Posse, In Full ef-fect. To The Top Baby!

Ramon Bandong

Ramon started at V.C. in Grade 9. For the past four years he has spent here, he has learnt so much about the real life balanced with school, social, religious, and personal commitments. Though not spent his years in the collegian, senior chorus, and the peer tutoring program. He extends much thanks to Kris, Pat, Ryan, and Joe for making his stay at V.C. a cherished one. He hopes to attain his masters in Computer Engineering at Dartmouth after finishing at U.B.C. first.

Beefy's tour of duty began in grade four and he many times wanted to end it during junior high, but a force compelled him to stay definitely not for all the gorgeous girls here. Although not actively involved in athletics, Darren did have a stint in intramurals and will never forget playing football with the guys in grade seven. Many memories are held within the hallowed halls of V.C. From the horrors of French 8 in 209 . . . and French 11 in 209 to the complex fractions in Br. Basil's math class. Darren thanks all his teachers and wishes the grads of '90 the best luck. Cheers!!!

Richard Bon

Richard was accepted into V.C. in gr. 5 and has enjoyed College life. Spending the majority of his spare time mastering the finer points of hockey, Richard was regretfully limited to only cheering on the Irish. Maintaining academic honors every term wasn't easy, but marathon phone sessions and good times with E.D. and F.E., S.P., J.D., J.B., T.F., J.G., D.B., and V.G. eased the rigors of school. Before pursuing a career in medicine, Richard would like to thank the teachers and the first for the first school. teachers and staff of V.C. and especially his parents for their love and support. Good luck to the grads of '90.

Blair Boyd

Jonas would thank all his friends he had made during his stay, and would like to thank his family for all their encouragement and support.

He joined the Irish tennis team, track team, soccer team, and rowing team. As a part of Inaugural crew Willie has had the privilege of getting up at 4:00 AM every morning for the past 2 years. Joy! John Dear

Since arriving in gr. 8, John has participated in track and soccer, and has made the honour roll and has made the honour roll several times. This flip has been lost in the halls of V.C. since 1985 and still has trouble getting his schedule and classes organized. Thanks J.L. for always being there. Best of luck to all Grads of 1990. "Carpe Diem" "Sieze the day"

Lionel Anthony Haims

Surprisingly, Lionel enjoyed most of his 12 yrs at VC. Colouring books, Cat in the Hat, yearat VC. Colouring books, Cat in the Hat, year-book, and bewildering calculus made the first few and last few years the most memorable. He, unlike many of his peers, was NOT forced to go to and remain at VC, he consciously (3) decided to stay once he realized where he was. Throughout the 12 yrs he, along with the other 12 yr men, saw the school change in many ways, usually improved for the grades below his. Now they will witness (but not benefit from) what must be the largest change benefit from) what must be the largest change in the school's history. Lionel hopes to go to university despite the horror stories. Of course he would like to thank all his friends who know who they are (even the not-so-close ones who sometimes made school bearable with a simple 'good morning') and his parents who made all his happiness (?) possible.

Donald Hardy

In grade 11 V.C. became the ninth school, in the fourth country, that Don has attended. Many of his experiences here will never be forgotten. The most unforgetable of these experiences were playing football and graduating. He wishes to thank his friends and family for their support. After graduation he intends to continue his education and discover what the future has in store for him.

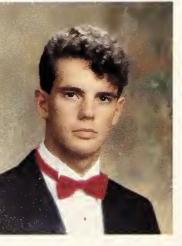

Dave Haslam

"Good times, bad times, you know I've had my share," but all the times over my past 7 years at V.C. have been fun thanks to Jim, Em, Jetstream, RP., Beef, & all grad 90. To my lunch buds: Gotta scoot, have a nice life and forget me not.

Stephen Hughes

Stephen came to V.C. in gr. 8 from the North Shore, only to meet Brother Basil head-on. Stephen has little concept of homework, especially during ski season when he can be found on the slopes of Cypress. Future plans include attending S.F.U. for computer sciences or business administration or, if that doesn't work out, spending the rest of his life south of the equator.

Mike Kennedy

Luck of the Irish helped Michael come to Vancouver College while eluding the disasters of RHS. Mike, a Richmond resident who entered College at grade eleven, leaves with two years of education that have taught him true aspects of life. He hopes to apply this knowledge in times to come. Mike has been actively involved with the Varsity Football team and would like to entend his thanks to the endless dedication of the coaches, the supporting teachers and the tribe: C.F., S.G., N C.R., the almighty thumbs.

THE FINEST SCHOOL ON EARTH

ive short years, then it's over. My time at Vancouver College has been fantastic. I have seen people come and go. I have been to many dances and other school functions, some successes and some failures. These five years have been an unforgettable experience. I arrived at V.C. in grade eight. I was a tall lanky kid with pimples who stuck out in the crowd. My

memories are still fresh of the nervousness and fright that overcame me during my first homeroom. Shy and self-concious, I sat in my desk listening to the morning announcements. "One black and red calculator lost during block H, if found please return to homeroom 10-1." Krrrgh the mic sounded, "Come see the Fightin' I corral the Richmond Colts this Saturday night on O'Hagan field."

I remember the size of the Varsity football players. They were giants wearing purple sweaters with big golden V's on the front. I felt so small and awkward when I stood next to them. I soon found out they were human, not supermen.

Grade eight dances were scary, four hours of pure hell that cost me money. I remember spending the first three and a half hours hanging out in the corner of the gym with my friends trying to be cool. Eventually, one of my friends coaxed me into asking a girl to dance. So there I was jumping up and down making a fool of myself, while my so-called friends are laughing at my inexperienced and unique moves.

Things sure have changed. I have since made many friends and have gone through many good and bad times. Last September, I went to my last "first day" at Vancouver College. Then, my thought was, as usual: another year of books, teachers, and tests. But, for the first time, people are telling me my grades must be excellent. I the world, and above all, I must not slack off. I would have thought this situation would make this year unpleasant. On the contrary, it has brought me closer to my friends and has also forced me to take an interest in my future.

Here I am, in my final year at Vancouver College. I have grown tall, filled out, and my face has cleared up. I now walk through the halls with confidence. I wear my purple sweater with a golden V, with pride. I know what I am after five interesting and memorable years . .. a graduate from the finest school on earth, Vancouver College.

Raymond Lee

Five long years have passed and I have finally graduated. If I could go through this again, I wouldn't. Once is enough but all my memories with my friends will last me until I'm too old to remember. You get an opportunity to graduate from high school only once (if you're lucky) so I'll thank all the teachers who deserved it. Special thanks to J.P.L.Y. for the interesting times on B.C. transit. Quote: "It's not whether you win or lose, it's what you drive home in."

Earnest Hin-Lung Leung

"What you are is your parent's gift to you, What you become is your gift to your parents." The past five years at V.C. have been a memorable experience for Earnest. During his stay, he has maintained a high G.P.A. and participated in many school activities. He is sad to leave, but realizes that he must move on. Earnest would like to thank RDL, RD, VO, PP, PC, AS, JP-LY, and all his other friends who have supported him through these years. Earnest would also like to thank the office staff FA, DN, and DML for making his stay interesting. Most of all, Earnest would like to thank his Mom, Dad, and Brother for their guidance, support, and sacrifices throughout those years.

Christopher Siu-Chung Lin

If I hadn't attended V.C., I could have gone to public school enjoying the greater variety of courses, the jeunes filles, and I would not have had to spend so much time commuting. But the experiences, friendships, and memories I have acquired here will be with me throughout my life. It has been a truly unique stay for me, and I wish to thank my parents, teachers past and present, my friends and acquaintances for making it such a challenge." CARPE DIEM!" "Seize the Day, for life is short!"

Peter John Leeds

Crawling out of North Van 5 years ago, PJ still comes to school asleep. However he found haven in his religion classes. He plans to take up a career in forestry, and thanks Mr. Kavalec & Mrs. Borovic for all of their help. His real ambition however, is to remain young at heart.

Rob Livingstone

Rob has been wandering the halls of Vancouver College for 12 years (trying to figure out the block schedule). He has made plenty of friends but one in particular, Don K.S. Turner. Don has made Rob's life at V.C. an interesting experience. After V.C., Rob hopes to attend S.F.U. where he will study commerce, so in the future he can use the skills he has learned to become extremely wealthy. He wants to leave the school with a few words of advice: "Money isn't for spending — its for rolling around in."

Joseph Lo

I'll miss my mentors, especially Monsieur Frog and Senor Analytical-Algebra. Also, thanks to my mates for an unforgetable time: "Compulsive-Shopper" Hung, whom I found unbearable after spending a summer with in the capitalist paradise of H.K., "Donald Trump" Lin, who plans to one day do a corporate takeover of that same capitalist paradise, and "Swingin" Yip, who can be found at English Bay most Saturday nights with a different girl. And mostly, I would like to thank my parents, without whose help I would not have gotten this far.

Scott Edward Lunny

Scott arrived at V.C. in grade 8 and since then has been involved in all aspects of school life, including Football at all levels. Some memorable moments: Partying with C.F., C.R., M.Y., S.G. and The Boys and pregrad with D.P. and G.M. Also a bronze in Halifax with D.D. High fives are flappin' everywhere in the pit of self-righteousness and boys remember: The bottom line is . . .

Miguel Magnan

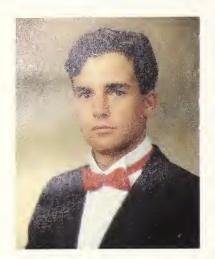

Arriving from D.L.G. Elementary, Miguel resented being sent to V.C. in grade eight. Yet as time progressed, the resentment faded. Miguel made priceless friendships and had various memorable experiences. He joined extracurricular activities such as yearbook photography and the VoiCe. Miguel plans to attend university, but has yet to choose from myriad of possible careers. He plans to visit all his relatives in Spain, Mexico, and France. Miguel would like to thank his parents and all his friends for all their encouragement and support. "Keep true to the dreams of thy youth" - Johann von Schiller

Since grade 5, Adrian has been journeying across Vancouver, from the sunny side of town, East Van. to Vancouver College. Throughout the years, Adrian has gone through the ranks of V.C. which ranged from Mr. Olson's Band class to the dreaded Biology 12 class and enjoyed all of it. During his stay at college, Adrian has attended as many football & basketball games as possible. Winning the Archbishop's Cup from N.D. ('85) and the Emerlad ('86) highlight the years. Adrian wishes to thank his parents for forcing him to go to V.C., and also his friends and teachers who shared with him the best of memories. (Yo Dave, see ya tomorrow!)

Most of all he wants to thank Mom, Dad, and M.L.M. for their love and support, listening to him complain, and keeping him sane (or close to it). Special thanks to Mr. Sponza for his guiding ways. To all the parents who never approved, "Do as I say, not as I do!" One last thing boys, "Who's got the bear?"

Mark Mawhinney

Mark came to V.C. in grade 6. Some Memories include Math 8/9 with Bro. Basil, and English 11. Mark was a photographer for the Collegian in grade 11, but retired after his short career. The fun times includes: Carol ships 89/90 and summer 89 with FFFG, lots of dinners out! Last but not least, begging dad for a car and still trying. He would like to thank all of his teachers and wish the best to all Grads of '90. QUOTE: "No matter where you go, there you are."

Cam McGrandle

Ever felt alone in a room full of people? School, for now, is forgotten and life is about to begin.

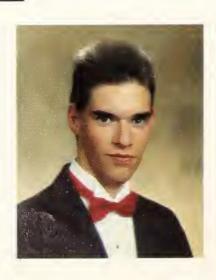

"It is a new land out there, and I wish to see it. I want to wander down the long hills, seek out wooded canyons, follow its rolling streams. I want to live from the country, breathe the air of the high mesas and climb to where the streams are born from under the solid rock."

Nick McLaren

Nick Mclaren came to V.C. at the beginning of grade 11 from the high school of Glasgow in Scotland. He would like to thank his parents and teachers for their support and help.

Stephen McNamara

From the moment Mrs. Campbell greeted him in grade one to the end of the last grade party, he has had only fond memories. Stephen hopes to go to college in the east and then on to business school. He would like to thank his friends for making his eternity here incredible, and to his teachers he would like to say, "Yes, you finally got rid of me. But I have a younger brother."

Jason Meyer

"Myers" emerged from the suburb of Richmond, and was guided by enlightened spirits to Vancouver where he found C.V. six years ago. He has participated in various College sports, including football and golf. Best memories include: having a perfect record of "going" to school masses with B.B. & T.S. and being entertained, along with his classmates, by the personality of their gr. 10 math teacher. Jason hopes to enroll at either the University of Texas or U. of C., where he wishes to further his swimming career as well as to pursue a profession of law enforcement

Ryan Munro

"I'm making this up as I go." - Indiana Jones. Ryan was hit on the head with a blunt object and then was forced to go to V.C. in grade 7. He remembers very little, due to blacking out for entire semesters. However, he does recall certain teachers, who shall remain nameless, until he writes a really cheap sleaze novel. Ryan vaguely remembers sniffin' Jiffy, ripping off Hasty, sheep and Beaton. S's Law whining. Fritz's yammering, L rambling and D for writing it all down. Thanks to G, T, J, D, R, J, B for being there when I wasn't. Stop whining!!

Gerard Murphy

Murph came to V.C. 6 years ago. During his stay Murph participated in basketball as well as J.V. and Varsity Football, as the emergency wards in Shaughnessy, U.B.C. and Oregon will attest. F.M.'s include Whistler with the F.L.L.S.T., morning snits and French with S.K., cleaning up after C.R. and S.L., being burglarized in the wee morning hours and the unforgettable "Closed Window!" Murph leaves all with this special insight to life, "Nothing is easy as it looks! Everything takes longer than you expect!" "If anything will go wrong it will and at the worst possible moment!" Murphy's Law

Joe Nguyen

Joe Nguyen first arrived at V.C. in gr. 8. During his five years, he has participated in the Collegian and was a proud member of the Band. Joe will remember his band trips to Calgary, Toronto, Kelowna and Victoria. Joe intends to continue his studies at U.B.C. in sciences to later pursue a career in medicine. Joe would like to thank his friends and teachers for an enjoyable and rewarding experience at V.C. Best of Success to the grads of 90'.

Tony Nardi

My years at V.C. I can best remember roaming through the halls with the "Italian Connection": Paulo Rota, Anthony Whitle and I. How could I forget the fear I had coming into V.C., and the confidence I have gained throughout the years? I have definitely benefited from V.C.; more so, from teachers, peers, and friends. I will never forget the times Paulo Rota, Mike Spidel, and I had with Mr. Sponza. It was educational! Thanks for everything, Mom and Dad.

Matthew Alfred Paul Nathanson

Matt has been arriving late consistently for the past 12 years. When in attendence, he participated in student council, letterman's executive, grad committee, all levels of basketball, and . . . oh, the honour roll! Matt will be remembered for his ways of scamming rides, his (undeserved) membership in the D.D.A, and his skiing skills. He thanks all his friends for the good times, especially J.P. (eye contact with C. and N.D at Kits, c.h.-ing in S.D, and parking in THE driveway), and wishes the grads of '90 a great future in CAPITALIST Canada.

Doug Oddy

"Works for me." - Hunter Twelve years ago Doug had to choose between numerous schools in the lower mainland. Doug messed up, bigtime. FM's include SB's in Whistler with M.KM, M.D., C.M., Holiday Inn, fully clothed hottubs, Sci Tech 11, French 10 x 3, frequent visits to the office, snowballing dirty Rogers, supersprint brawls, chip displays, and all nighters with R.O. P.P.'s are noisy white rabits, hot bathrooms, Milli Vanilli, teachers with undershirts, and report cards. Doug would like to thank his Mom, Dad, R.O., Mr. Burke, and all his friends. Doug's future ambition is to own a Corvette.

-

This is Jaime's second year at V.C. He's made many friends who will certainly cross his path sometime in the future. Jaime had been involved in the Football, Basketball, Track and Varsity Letterman associations in his short while here. Jaime plans on crossing the border where he is sure his potentials will be met. I'll never forget our beach memories M.N., and I still believe you didn't do anything. Thanks G.K. for the unforgetable year. Thanks again to my friends and the school for a great two years. "Watch out, U.S.A., here I come!"

Jaime Antonio Paredes

Mark Pearce

Mark has been at V.C. for gr. 8, 11 and 12. He played soccer for 2 years and football for one. He hates to study, especially for exams. He loves Christmas break sking, spring break in Fiji and summer at the beach. He remembers dances, football and basketball games, pep-rallies and Robson street, especially with P.S. One of his greatest memories of V.C. was with P.S., D.D., P.W., and M.D. on "p-day". One person he would like to give a very special thanks to is M.K. Thanks for the memories

Victor John Orcullo

Victor is now leaving the "Hallowed Halls of V.C." after five enjoyable and memorable years. After completing seven years at St. Paul's and finally five at V.C., Victor has grown (not literally, he is still 5'4) to enjoy going to school. He would like to thank his pares who made it possible for school to be fun; A.S, P.C., R.D., R.D.L., J.C., J.N.T.N., E.L., J.Y., B.Y., T.F., the "soul man" and also the B.K.S. These past years have been the best he's had; while being in the concert & stage bands, yearbook & a two year stint with the Senior Chorus. He hopes there are many more to come. Cheers to the grads of 1990. "Hanggang magkita ulit tayo" - the Posse

Paul Meen Park

"This above all: to thine own self be true." Paul was one of the many young, wide-eye students who entered V.C. in gr. 8. As is common with young people, he grew in age and maturity, joining the VOICE school newspaper, as a writer in gr. 11 and co-editor in gr. 12, and the Collegian yearbook layout staff in gr. 12. He wants everyone to know that to get anything worth having takes effort, and he would like to say, to his parents and all his friends at V.C.: Thanks.

Marc Joseph A. Pelletreau

Now here is a student who strived to be himself. As he put it, "I just gotta be who I gotta be." Marc served a full sentence at V.C. and an extended elementary one in an excess of 16 393 hours. He stated that although he does not remember most of it, there are a few things that he will not be able to forget, like traveling to and from school on a bicycle some 9 126 km, late slips, Apple II's, homework, flat tires, and Monday Mornings. Marc also said that he would like to wish the best to all his friends (who all know who they are) and to his family who made life for him what it is. Marc plans to further his knowledge and expand his wisdom somehow, but he is not quite sure how. :) "Laaah!" - The Fat Lady.

Giorgio Petricca

Giorgio has been attending Vancouver College from his home in Vancouver for the past 11 years. His future plans include: entering the Faculty of Science at U.B.C. and becoming a successful individual as a result of obtaining a couple of degrees in this particular field of education. Giorgio thanks all his friends for the many memorable experiences shared together and wishes them the best that life has to offer. Giorgio would also like to thank his family and the V.C. staff for their support, and wishes the best of luck to all the Graduates of 1990. "Life is what you make of it." G.M.P.

Steve Phillips

"Lips" arrived here in grade 8, and after a rough start, eventually set-tled into College life. He has been tled into College life. He has been involved with track, football, soccer, the Letterman's association, and the band during his five years at V.C. Steve's highlights include going to Calgary in '88 with the band, winning the S.V. football provincial title in '87, earning his letter in grade 10, and spending good times with S.C., J.D., F.E., R.B., V.G., T.F., and others. He would like to thank all the teachers and most importantly his parents for a memorable stay. Best wishes to the first College grads of wishes to the first College grads of the 1990's.

Since then Rob has enjoyed: all 8 in gr. 8 with J.B., C-Ya with J.T., the S-team with E.D., cliff hanging with J.G., serving on Grad Committee with D.M. and M.D., and especially partying with the Stones. Future plans include becoming an advertising agency on the side with V.G. and model J.G. 2. One last message to all grads, One last message to all grads, "You can't always get what you want, but if you try sometime you just might find you get what you need" (the Glimmer Turirs) Hey her, "Yew!"

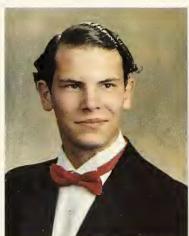

Ken Poon

Ken came to V.C. in grade 8 and has immensely enjoyed the expert tutelage and many good times he has had with friends and teachers: W.D., M.M., S.M., J.N., G.P., R.P., Mr. K., Rip and I.S. He would undoubtedly prolong his tenure at V.C., if it did not entail failing and subsequent humiliation. Nietzsche subsequent humiliation. Nietzsche said that the purpose of civilization was to create a few great men, and then to get around them. The purpose of high school, then, is to mollify young people and then to kick them out. His only wish for the future is that he may be sufficiently capacitated in order to attend the reunion.

Dan's past at V.C. has been a memorable one. Although Dan's scholastic achievement was sometimes neglected, he made up for it in other places. When Dan was not found buried in books, he was found jumping off high struc-tures, or with the "boys" enjoying better bass. Dan's advice to future grads is "Have a blast, it rolls only once." In the future Dans plans on becoming a poet, and living wild and free in the jungle. "When I go, I'm going in style, and if not, I'm going my way." "Love you, Wood."

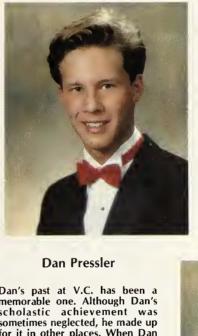

John Rivas

John has been coming to V.C. from South Van. He has been seen listening to U2 and New Order day and night, sleeping in Economics 12 class (thanks Mr. Isaac!), and supporting anything American. (eg Marlboro, Winston, Camel, etc.). John plans to attend S.E.L. to obtain a degree in Com-S.F.U. to obtain a degree in Commerce and to become the second person in the V.S.E. to earn \$500,000 in one day! He wishes to thank his family, Victor W., Trevor H., many other great friends, and to outsiders like Jennifer W., Vicki K., and Sandy W., for a great graduating year!

Chris Ross

Chris came to College in grade 8 from sunny Richmond. Since then he has been actively involved in junior and varsity football. Memories with Ciaran, Scott, Scott, Sean, Greg, and Mike include the Granville Street Bridge and partying at Murph's and Burns's. A co-founder of the pit of self-righteousness, Chris would like to thank his parents for everything. Hopefully taking Commerce at U.B.C, Chris leaves these thoughts: Scott, have another; Sean, cork it; and Ciaran, you're a great friend; write me! Finally, Chris would like to thank you for coming out and being part of the team. (Inside joke!!)

Paulo Rota

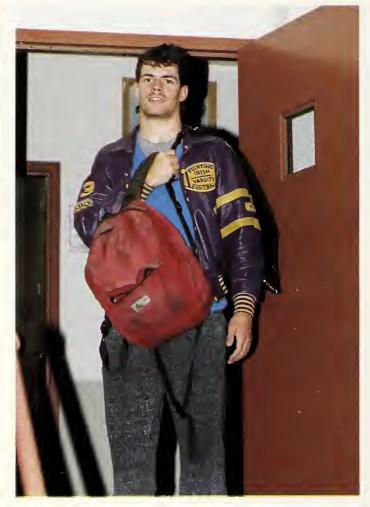

The experience of coming to Vancouver College in grade 9 walking down halls into the wrong classes seeing new faces. I will never forget the times I had with Tony Nardi and Mike Spidel. The many times we ended up in Mr. Sponza's office for the many little things we did. Since that time we've became very acquainted to Mr. Sponza's office. Never Forget Mr. Adams story telling and Mr. Devenports surfing experiences. Special thanks to my Mom and Dad for their support throughout my school years.

Guilhem Ryan

Guilhem was coerced to attend V.C. in '84. He has had his name mispronounced and mispelled repetitively since grade seven and is looking for another institution to do the same. On weekends Guilhem was known to be skiing up at Whistler, somewhere . . . maybe along unmarked trails! "They seek him here, they seek him there, they seek him everywhere." - Scarlet Pimpernell. Guilhem would like to thank J.C., T.H., R.M., W.S., J.L., B.Y., R.L. for making the insufferable times insufferable.

Cliff Shew

Cliff is the second Shew to make his daily trek from the Eastside. In his 4 year stay at College he has been greatly influenced by the Fighting Irish spirit. He has been an active member in Football and Track while proudly being a part of the Letterman's Association. He would like to thank his parents for their support, the Christian Brothers, all the staff, the coaches, and all his friends for the good times. He will never forget the football Championships. Cliff hopes to continue his education at U.B.C. and will keep "pumping up" with G.S., D.H., and S.C. Success is to Grads of 1990.

Andre Silva

"Change is the law of life. And those who look only to the past or the present, are certain to miss the future." - John F. Kennedy. Transition is always a difficult process, but not so difficult with the guidance of friends and family. My five years at Vancouver College have been filled with good friends and new friendships. I depart with V.C., looking forward to a new phase in my growth, mindful of the many fond memories of my stay. A special mention goes to my compadres V.O., R.D., R.D.L. (Flying Burrito Boys), P.D.C., R.B., J.C. (Cu later), and J.N. "Sige na manga pare!" - The Posse.

Greg Smyth

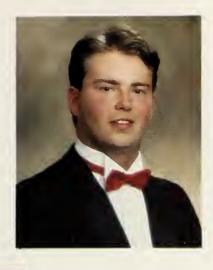

Greg came to V.C. in gr. 8 from O.L.P.H. He joined football, following in the footsteps of some of his friends, and has played ever since. He has enjoyed two wonderful J.V. Provincial Championships and two great years of Varsity ball. Smitty remembers the parties of gr. 11 and the "Nocturnal Activities" of his senior year. He hopes to continue his educaiton at U.B.C. Skiing at Whistler with the full gang will always be in his future. Greg would like to thank the teachers, coaches, and especially his friends who made his 5 long years at V.C. most enjoyable.

J.J. Starnaman

Although his stay at V.C. has only been a short two years (at first not knowing what to expect), J.J. now finds himself proud to be part of the V.C. community. J.J. became part of some major aspects of the V.C. culture including: being a member of the Varsity football team and being an avid Irish fan. J.J.'s future plans are to attend an insitute of higher education and become a rich businessman. "... I dare do all that may become a man. Who dares do more, is none."

(Macbeth Act 1 Sc. 7)

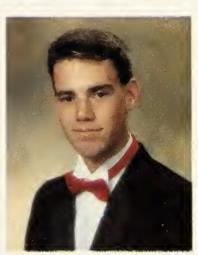

Ryan L. Storey

Ryan has been attending V.C. since grade 7 after coming from Chartwell Elementary in prestigious West Vancouver. Ryan's academic years at the College have been successful and his highlights were the two spring break trips to France and Italy. His future plans are to obtain a couple of degrees in the business field, preferably starting at a university in the east such as Western. He would like to thank his parents, teachers, and friends, and wishes the best of luck to all.

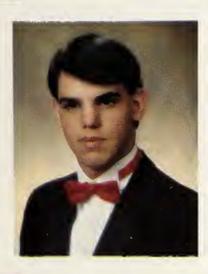

Paul George Stygall

Paul came to V.C. in grade 11 miraculously making the voyage for two years in soccer and track and field during his short stay. He enjoyed the atmosphere of V.C. and being part of the V.C. spirit of football and basketball games. Nights to remember were participating in P-day and Stones concert with M.P, D.D, M.d, P.W and Boston Pizza after basketball games. A special thanks to my parents and all the teachers that helped me during my short stay. Good luck grad '90.

Michael Tichbourne

Michael has been coming to V.C. from North Van for five excruciating years. He participated in the basketball program for three years and supported the Irish in all sports. Memories include the Who, Stones with D.C., the Emerald, Montgomery, Kamloops, and Comedy Corner with Mr. Toth. He especially thanks his Mom and Dad and all the teachers who put up with him. After graduation, Michael plans to go to California and just relax. The good times will never be forgotten.

He was quick to become a lethal member of the tennis team with G.G, J.M, and M.D. His life's goal is to become an awesome plastic surgeon or an anaesthe list and go to Heaven. He THANKS all his friends and the people (Mama, Papa, Y Hermanas) who made his stay at V.C. memorable and profitable one.

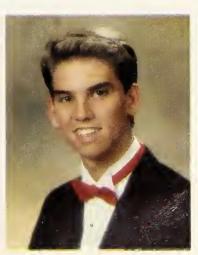

Don Turner

Don Turner A.K.A. (KS) has been going to V.C. for two years, making many friends and lots of waves in that time. He especially thanks Rob Livingstone for making his school life enjoyable. He also thanks Mike McNabb, Mike Mohammed and many others. After graduation he hopes to get a degree in Law or Architecture. He just wants to say that V.C. was fun. Many special thanks to the girls at L.F.A. Thanks R - Man.

Pat first came to us in gr. 8 from the mountainous region of Richmond. His early years were filled with basketball but Ed retired in gr. 10. He decided to concentrate on the 3 R's and the many social activities of V.C. Favorite memories include The Stones, diriving with Zac and hitting a grand slam off of Marlon (He threw a perfect pitch) Decaire. Pat hopes to attend U.B.C. in the fall and would one day like to be the principal of V.C. "We've gotta get out of this place" - The Animals

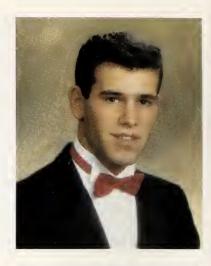

Cameron Wong

Cameron Wong has been attending Vancouver College for six years. Each year has brought many exciting memories. For the future, Cameron plans to attend college and hopes to become a computer programmer. Best of luck to the

Kent Woodard

The last "Big Guy" to graduate, Kent could often be found with D.P. bouncing quarters into glasses and exclaimingg "Hey Cha - Buddy!" Fond memories include Bev. As Lentered the halls of Vancouver College in As I entered the halls of Vancouver College in grade B, I never realized that I'd become so actively involved in school life, participating in Student Council (hey, E.D. & J.G.: E.P.! Track & Field (4 x 100 extraordinaire!), Letterman's Association; while maintaining high honor roll Association; while maintaining high honor roll standings. P.S. "School was educational, escape the pain don't go insane. That's right baby, it's all natural."

Besides being the 5 most recent years of Bryant's life, these years at V.C. have been the 5 most memorable. After arriving in Gr. B from a small, insignificant public school on the outer reaches of Vancouver, Bryant was forced to adjust to private school life very abruptly. Since then, life has been rather gracious by giving him many friendships and memories that he will never forget even when he is old, senile and lobotomized. Future plans include becoming a dictator or emperor of a wealthy Pacific Rim country and living the life of a king, or entering the Commerce Faculty at UBC. Either will do nicely. "Trust me, I know what I'm doing." - S. Hammer

P.S. Thanks to RI, JI, GR, RM, VO, LH, MP, MM, GD, yearbook gang, and my parents for making the 5 years worth it.

Grads Of 1990 Participate In U.B.C. Physics Olympics

n very short notice and with a tremendous amount of last minute ingenuity, the Squad of Ken Poon, Francois Ertl, David Lee, Rob Plain, Thomas Frauenberger, Steve McNamara, and coach-cheerleader Mr. McKay took off to UBC for the 15th annual Physics Olympics. After a conservative run in the Foil Boat Competition, the men, led by designers Ken and Rob, entered the Newton Mobile event and placed an impressive fourth. Then it was on to tackle other challenges like Fermi Questions (thanks Steve for your Original Thinking), the mystery event (trust your calculations not your instincts), the optical event (Oh well), the egg drop, (our hopes were shattered), and the Electrical Black Box where we won a silver medal. In the end the team placed fifth out of 54 schools attending. Great job fellas!

V.C. Student Attends National Forum For Young Canadians In Ottawa - March 10-17, 1990.

From March 10-17, Grade 12 student Emmet Duncan went to Ottawa, Ontario as part of the National FORUM for Young Canadians Programme. Nominated by the school and choosen by the National Selection Committe, Emmet was one of 125 students from across Canada.

All of the sessions, which included simulations, lectures, question/ answers and interviews were conducted on Parliment Hill. Emmet met several ministers, including Transport, Doug Lewis, Health, Perrin Beatty and Finance, Mike Wilson. As well, he met the Leader of the Opposition, unionists, media reporters, lobbyists and aides. He also dined with M.P.'s and Senators. All of the students watched Question Period, as well as sat in the Chamber. They visited the Senate and the residence of the Governor-General, Federal-Provincial Relations and a Cabinet decision were simulated and defended. Apart from the political life and the museums of Ottawa, Emmet met a lot of people from all across Canada, making a lot of friends. He highly recommends the experience, and thanks the school for the opportunity to go.

Excel 89 - November 16-18, 1989 Grads Attend I.C.B.C.'s Conference On Traffic Safety

The Insurance Corporation of British Columbia sponsored Excel '89, a conference on Traffic Safety, having all highschools in the Vancouver sector meet between November 16th and eighteenth. Each school was permitted to send up to ten students, preferably those belonging to the school Counter-Attack group, for a (offsetting) fee of forty-five dollars per person. Because the V.C. group was recently formed, only three students were sent: Bryant Yip, Ryan Munro, and Miguel Magnan.

Students attended five essential workshops that were previously chosen from a list of fifty-four selections. The pervading theme in the workshops was "Drinking and Driving", although occasionally workshops had nothing to do with this. Each workshop was hosted by professionals in the areas it emphasized. Workshop emphasis included information, self development/ communication, committee skills,

and student lab workshops/ project ideas.

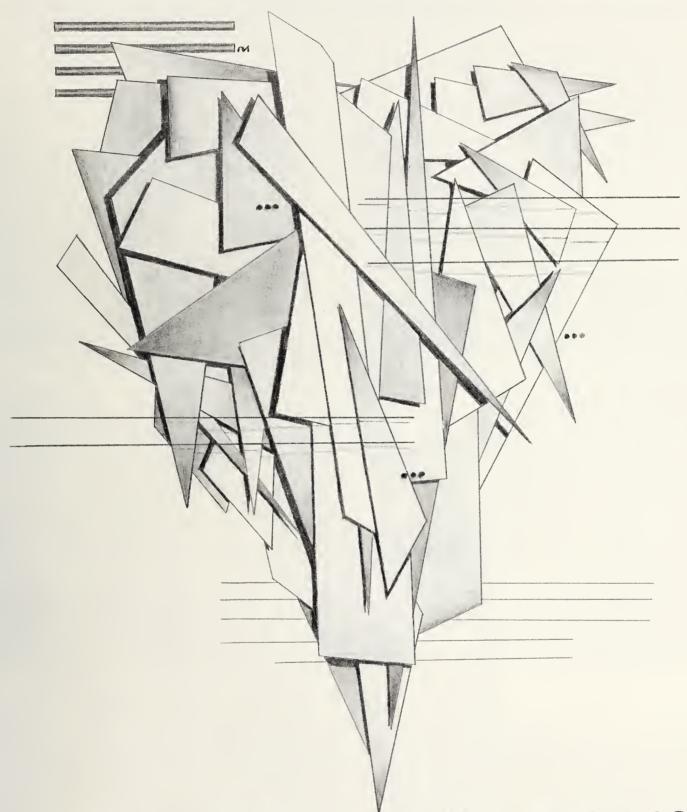

Overall, food, beverages, and entertainment was excellent. Throughout workshops and activities, there was usually something available to drink and eat. On the Friday of the conference, a semi-formal dinner banquet was held, followed by a dance. Entertainment was provided, in part by Damian Kyles, rated the number one freestyle and lip-sync artist in Canada. The Whistler conference achieved its goal. Most of us had one of the best times

The Whistler conference achieved its goal. Most of us had one of the best times of our lives-that is, without any alcoholic or drug influences - we were naturally high. Although it was never suggested to refrain from drinking (only from drinking and driving), I noticed a subconcious influence. Alcohol, had it been permitted, would have destroyed thambience of the conference. Students were capable of gathering and having fun without alcohol.

This year the Vancouver College Student Council moved Student Council to the forefront again in representation of the students. Several committees were struck so that this year and, more importantly, in the coming years, students can have a direct role in the dress code, Walk-a-thon funds, school organizations and leadership opportunities. Under the executive committee of Emmet Duncan (President), Micheal Yaptinchay (Vice President), and Jason Gach (Secretary Treasurer), Vancouver College has experienced a real warming of relations with L.F.A., York House, S.T.M., and St. George's, that will hopefully grow warmer over the next few years. The council highlighted the middle school, grades tens and elevens in the latter half of the year, seeking to give students in younger grades a sense of leadership and responsibility. Hopefully, next year's council will continue the emphasis of giving students hands-on control, as well as promoting such activities as Valentine carnations and putting on the best dances in the Lower Mainland. Thanks to Dan Issac, Richard Wang, Dave Haslam, and Mike Desjardins, and good luck next year!

Grad Committee

The 1990 Graduation Committee consisted of the following members: Francois Ertl as Chairman, Michael Desjardins as Vice Chairman, Dave Haslam as Financier, Rob Plain as resident artist, Matthew Nathanson and Patrick Calasan. Each member contributed large amounts of spare time and effort on various projects like car washes and rallies, "The Sequel" dance fundraiser, pre-grad dances, organizing grad photos and arranging tux rentals for the Dinner Dance to name just a few. We would like to acknowledge the contributions of time and effort from the Athletic Department. Business Department, and the teaching and office staff. Without these departments' generous assistance, graduation would have been a bitter failure. We would also like to say farewell to the rest of our fellow grads and wish them all the best in their future endeavours.

THANK YOU to each and every one of you; none of it would've happened without your help, support, and co-operation.

... THE IRISH MAKE IT TO B.C. PLACE AGAIN!

BUT IN THE FINALS

Once again the Fighting Irish were a dominant force in the Coast league posting an impressive 8 win - 2 loss record including a 21 - 7 thumping of Interior league rival Kamloops in the Semifinal game. The men in purple and white made it to the final game at B.C. Place for the second consecutive year against the perennial favourite Notre Dame Jugglers. After a tough home field loss to Notre Dame in the Archbishop's Trophy game, the Irish were looking for a little "pay back" at the Dome. The always faithfull contigent of Irish supporters were there, painted a variety of colors including purple and cheering their hearts out. The boys put up a valiant effort including a gutsy off-the - bench performance by grade 10 quarterback Greg Baldwin. But it was not enough and Notre Dame took home the championship once again. Coach Dal Monte and his staff are to be congratulated on a fine season. May the luck O' the Irish be with you next season.

The 1989 Vancouver College Varsity soccer team began the season in late September after a series of tryouts. Mr. Brian Davenport was back at the helm with his "simple-ball" tactics, following a year abroad. The lads got off to a slow start, losing to Richmond High, but finished strong winning eight of eleven games. The season was capped off by a 4-2 win over St. Patrick's for the Independant League trophy. Mark Pearce and Steve Phillips led the "Irish" in scoring, with seven goals a piece. Other standouts included the solid defensive play of John Herman, John Furch, the midfield general, and quality goalkeeping by Rob Thompson. With a host of rising young talent, Fighting Irish soccer has a terrific future at the school.

Too often in sports, winning is the ultimate yardstick by which success is measured. In this regard, it could be said that the 1989-90 Varsity Basketball Team was modestly successful. They won their share of games and placed second in the Independent league after defeating Notre Dame in an exciting back to back do or die series. They surprised many by advancing to the Lower Mainland Tournament. Yet this team can perhaps be thought of best in the words of graduating senior Jamie Paredes, who told the crowd at the seniors presentation following the first Notre Dame match. "We're going to work as hard as we can, give our heart and soul. We're going to impress people who play us and watch us, even if it's not on the scoreboard."

In an environment that demands nothing less than "the best", it is difficult indeed to impress without winning statistics. Winning carries a stigma that is often very tough to live up to. The Irish lost their final game against STM and were eliminated from a berth in the Provincials. I was there, on the edge of my seat, heart sinking as they fell behind 16-0 in the early minutes. And then, things began to work. Slowly and frustratingly at first but as the momentum surged in their favour, the images and sounds and emotions of a season of working together merged into a perfectly balanced tension. The unmistakable screech of skin on hardwood as Kel Watrin dove for a loose ball. The look of fierce determination on the face of Tyler Thompson as he grabbed a rebound. The Irish fans led by a drum beating Steve MacNamara guiding a foul shot with an animated chorus of 'swoosh'. Even before the first basket finally dropped we understood the team wouldn't give up. The parents knew it, the Irish cheering section knew it, and most importantly, the players knew it. In the final seconds of the game they trailed by only two points. It was still within reach. They inbounded. There was a last desperate

shot that almost made it. In the end the margin of victory wasn't really important. The 1989-90 Varsity Basketball Team was honest in their efforts and in the process has left an indelible impression of what teamwork and winning is all about. They demonstrated that success is a frame of mind. It is where you bridge the expanse that exists between knowing where you are 'and' where you want to be. By this yardstick, these young men have truely realized success.

Penchant For Second Place!

THE YOUNG & THE RESTLESS!

Once again Mr. Grant's squad had a penchant for second place finishes. Despite being very young (3 grade 9 starters), the team compiled a very respectable 27-11 record. Assisted by vocal cheerleading, slash and razor hairdo's, and some clutch shooting, the team finished 6th in the B.C.tournament at STM. They battled opponents to the wire in every game and showed the desire necessary to suceed. The highlight of the season was the team's trip to Nanaimo where they walked away with the "Most Sportsmanlike Team" trophy. Congratulations to all the players and the best of luck in the future.

The Eleventh Annual Dinner-Dance-Auction

On Saturday November 25, 1989, the Eleventh Annual Dinner-Dance-Auction was held in the V.C. Alumni Gymnasium. This gala event, organized by the V.C. Parents Association, was, once again, a smashing success. The auction raised \$25,000, to be used towards the benefit of Vancouver College. The food, music, and dancing made the evening one to remember. Special thanks to Mrs. Lam and all the other parents and students who helped make this evening a special one. And finally, to all the parents and friends who attended, we would like to thank you for your support.

Assemblies

The assemblies this year were both innovative, informative as well as meaningful. For those of you who actually recall going to the assemblies, you may remember events such as the pep rallies, where the TRUE Irish spirit surfaced, liturgies, where our harmonious voices joined in celebration of the Eucharist (accompanied by Sister Shreenan), the Walk-a-thon auction and last but not least, the prestigious academic assemblies where many of our colleagues were recognized for their outstanding performance in their daily scholastic activities. With the ongoing expansion of the new physical education facilities, next year's assemblies will be all the more stimulating and spacious! Thank you for your continued support!

"I now talk about a part of the Vancouver College community that is ignored and forgotten by many, yet is indescribably necessary. I'm talking about friends, those generous and loving people who aid our school in times of need. They are essential to the smooth running of our school, yet often overlooked. I pay tribute to the fine people called friends, who give us the strength (not to mention money) we need to have a successful yearbook."

And Finally . . .

BRUCE MCKAY, Moderator

A coach understands that from season to season the chemistry of a team changes as some players move on and new ones take their place. Building each new group into an effective team is one of the facets of coaching that provides the most challenge, frustration and reward. The Yearbook team is no different. Each year we have a new group of students, led by the seniors, who together produce a graphic collection of school memories. They are individuals who provide new talents, ideas, and attitudes. The book they create is an original and, like the product of any team, it is a reflection of their uniqueness. Most students really don't realize the quantity of time and effort expended by a small, dedicated group of their peers on the Yearbook staff. For this team the season is long and their task quite overwhelming. And many individuals fall by the wayside as the enthusiasm of September wears thin. However, there are fortunately always a dedicated few and to them I offer my congratulations and thanks for their persoverance. I suppose they are the ones who come to appreciate that each person is a "well of potential" and those who enjoy only the reflection, may find the well soon empty.

PATRICK CALASAN, Editor

Moments before the final deadline, I decided to write my "Editor's Message", outlining my experiences with the Yearbook as this year's Editor. Due of lack of time, resources, and enthusiasm, this message cannot be the intellectually-stimulating literary masterpiece that I had hoped to create. Nevertheless, I shall attempt my utmost to achieve my goal of presenting a brief review of the memories we have created over the past school.

Images flash before me, as I now have time to look back and reflect on the past school year without rushing for another deadline. There were good times and bad, joyful and painful, but through it all, I, along with the dedicated core members of the Collegian staff, felt a deep current of strength and responsibility that kept us all alive during our times of trial. My journey as editor began at the Annual Yearbook Workshop at Shawnigan Lake. It was three days filled with sunshine, great times, and new friendships. And then the work began. In the beginning, we were full of energy and ideas which were to be incorporated into this book. As deadlines approached, these ideas were set aside as completion was our prime objective. Many hours, often late nights, were expended as we laboriously fought against Father Time.

On the last day, the day we had worked all year for, we were overjoyed. I felt like a heavy burden was lifted from my shoulders. The product of our labors, a product with which I hold a great amount of pride, is now in your hands. Mission accomplished.

Special thanks to Mr. Bruce McKay and Mr. Reid Felske for their guidance and patience; to the yearbook staff, most especially the dedicated core group, for all the hours they have put into this book. And finally, to all of you . . . ENJOY THE 1990 COLLEGIAN, IT'S A GOOD ONE!

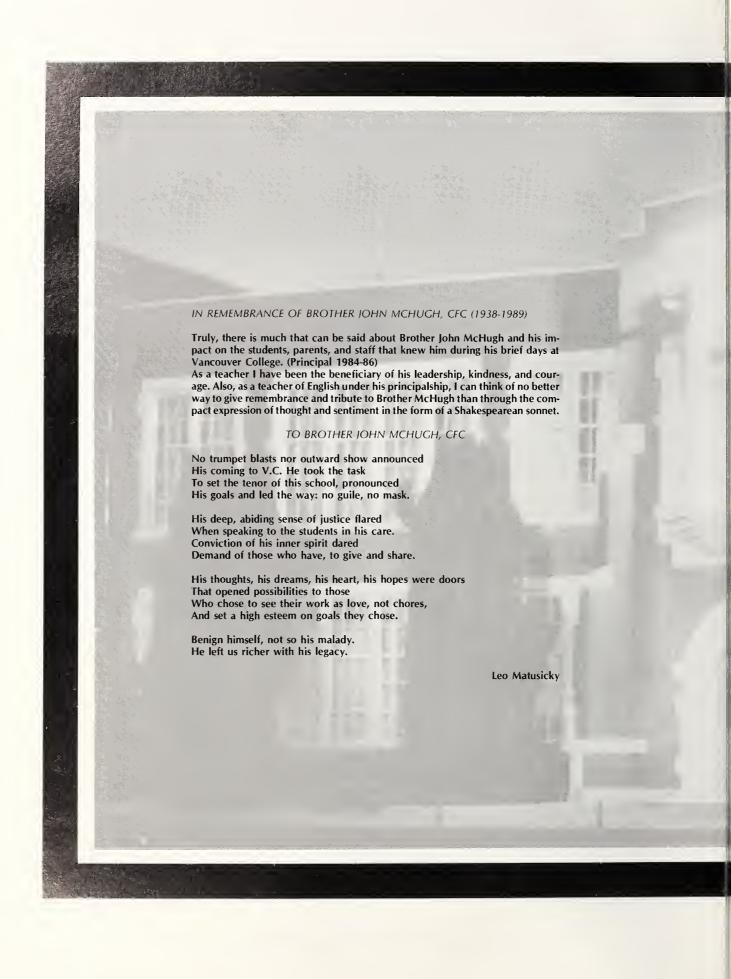

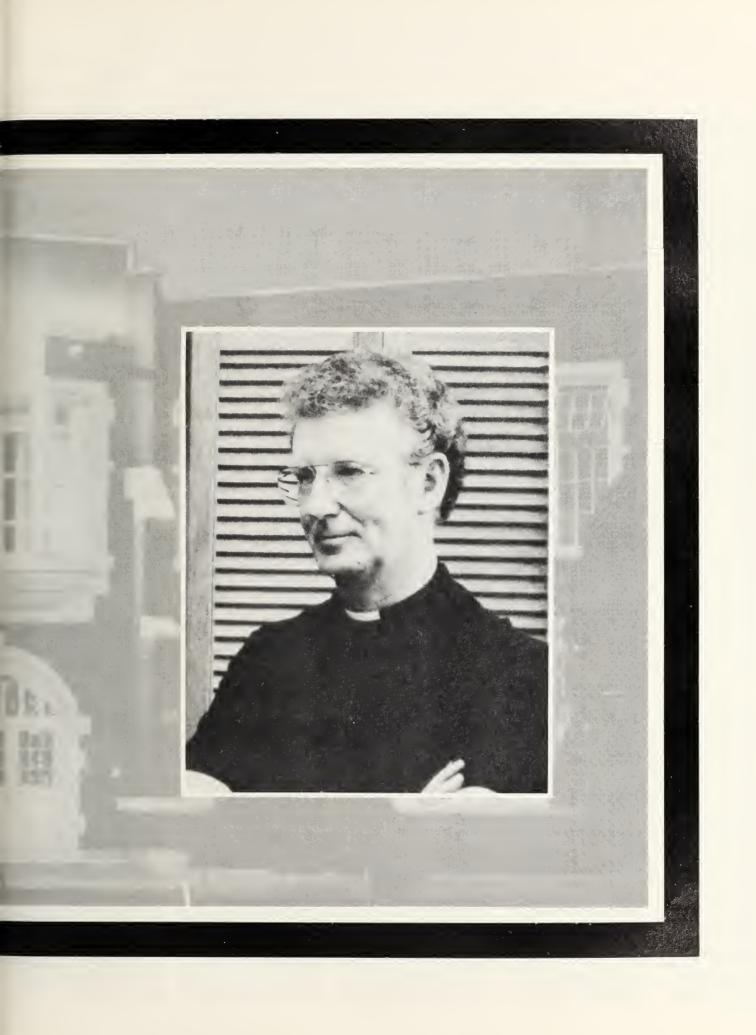

BRYANT YIP, Photographer

"This is impossible, we can't do all of this in only two days!!!" - The second most heard phrase in yearbook. One can only guess what the most heard phrase was. It was quite ironic, seeing that last year, around deadline time, I couldn't understand why Mark and Scott seemed incredibly hyperactive. Now I know why. I can remember Pat and I going up to the Summer Yearbook Workshop at Shawnigan Lake and having nothing but fun. I can also remember Pat and I coming back to V.C. filled with enthusiasm about getting down to work on our "best-ever" yearbook. We don't seem to remember having much help though . . (Although my loyal comrades Lionel, Marc, Ryan, Miguel, Joe, and our little helper from LFA were exceptions.) During the course of the year we accomplished many things, like mastering "Zen" photography (using the Force to do photos) and abiding by my motto, which I am not at liberty to discuss in public, for fear of being arrested. I can recall many things that made doing yearbook fun this year, some of which are, camping out overnight in the Yearbook room to make that final deadline, repeatedly being locked in/out of the school by Br. French, roaming about the school in the dark of the night, and of course, the exquisite cuisine that we would dine on if we stayed REALLY late (drinks too!). I sincerely hope that all of you readers out there think that the Collegian '90 has been one of the better yearbooks ever produced, but if you don't, I have but no other choice than to take my own life in the most disgusting way conceivable. (I'm open to suggestions.)

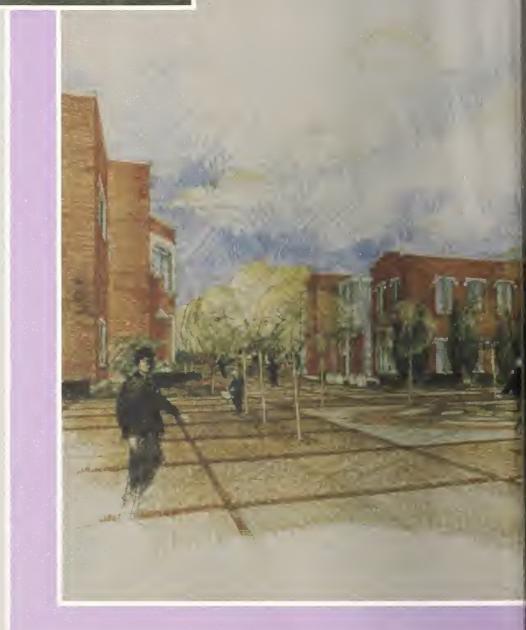

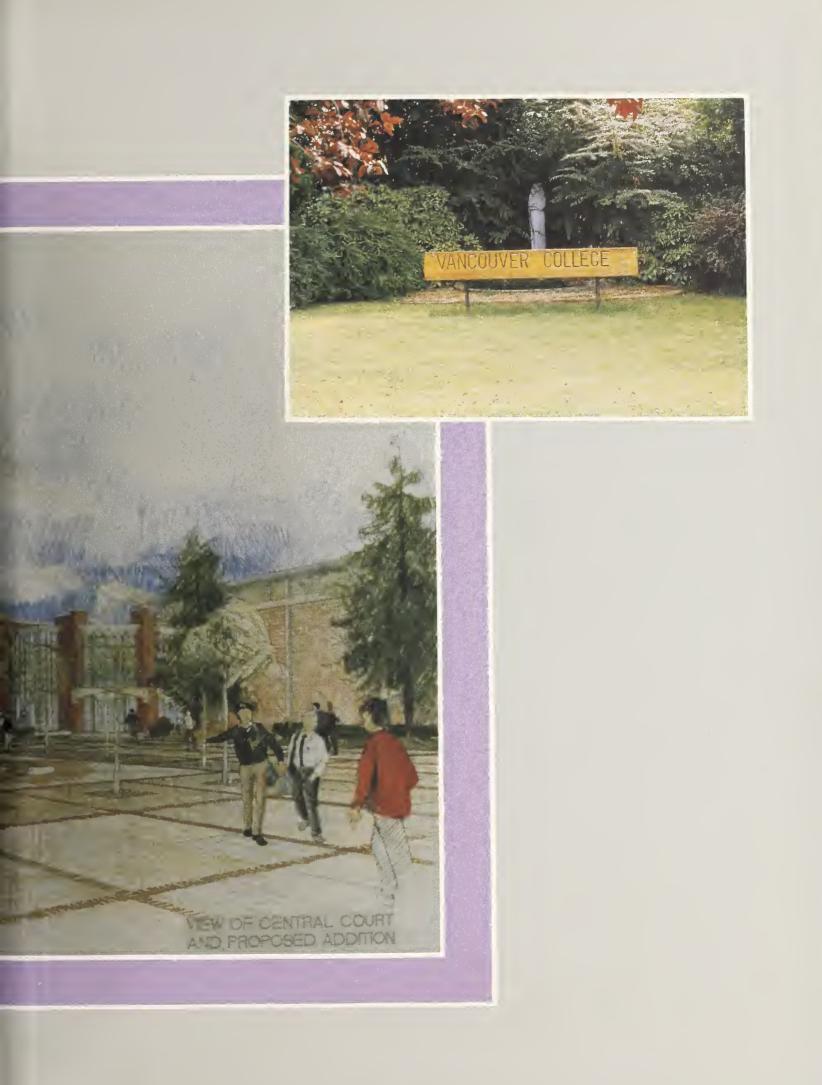

. . . Our Messages!
